- **HSC, Gujarat Board**
  The School of Science, Rajkot. – March,2011   Per. scored: 80.46%
- **SSC, Gujarat Board**
  Navyoug Vidyalaya, Morbi. – March,2009   Per. scored: 85.23%

TECHNICAL SKILLS

Languages	C, C++
Tools/Development IDE	Git, IBM Clearcase, IBM Clearquest, Visual Studio 2012, IBM Optim 11.3, PowerBuilder, Rapid SQL
Database	Sybase, MySQL
OS	Windows, Linux

PROFESSIONAL EXPERIENCE SUMMARY

Capgemini	**Oct 2016 to Till Now…**

Project   **:** Customized Model Development
Client   **:** Transunion (US Based Credit Rating Agency)
Technologies **:** C,C++,Git, IBM ClearCase, IBM ClearQuest, Visual Studio 2012, Linux server, Windows 7

Description:

CMD (Customized Model Development) focus on implementing, delivering and supporting online and batch models for Transunion and customer specific initiatives. Model is developed using C and C++ which produce categorical credit scores using the most suitable algorithm, and called by JAVA framework (Transunion Routing Framework). Model is manipulating credit related data and providing credit information (like. score, reason code) in terms of credit report(form). The models may have to be developed from the scratch, or may be upgraded from older existing models.

Responsibilities:

- New Model development and Unit testing.
- Migration of existing models form batch to online.
- Quality Assurance of developed model.

Capgemini	**Oct 2015 to June 2016**

Project   : Claim Handling and Relational Loss Information
Client   : MetLife (US Based Insurance Provider)
Technologies : Sybase, Optim 11.3, Power Builder, Rapid SQL 8.7.1, Windows Server 2012

Description:
    CHARLIE (Claims Handling and Relational Loss Information Environment) is a claim management system used for taking and working losses for AUTO, HOME, BOAT and PELP policies. It is primarily a client-server application with some n-tier Java components that is backed by a Sybase DBMS. Primary users to Charlie applications are located in the Field Claims Offices (FCO) who logs the claim on to the system. Policy holder / Agent do not have direct access to Charlie, they use eService and other web applications to integrate with the Charlie database to display claim information on the screen.

Responsibilities:
- Application Support and Maintenance.
- Batch job monitoring and performance troubleshooting.
- Optim tool job support.

Capgemini	**Mar 2016 to Apr 2016**

Project   : IBM Optim tool Upgrade
Client   : MetLife (US Based Insurance Provider)
Technologies : Optim 11.3, Rapid SQL 8.7.1 and Windows Server 2012

Description:
    Installation, configuration and job testing of IBM Optim 11.3. Optim is a tool which is used to archive the data from the primary database server and store it into a file called AF file. This AF file is then used to load the archived data into archive database.

Responsibilitis:
- Optim Tool and Job testing on Model office.
- Installation, Configuration on Production.
- Optim Tool and job testing on Production.

ACHIEVEMENTS AND EXTRA CURRICULAR
- Received numerous appreciation mails from customers, onsite team, offshore team, Project coordinators for quality assurance, deliverance on time and good team work.
- Got **2**nd position in "**The Googler**" event of FELICIFIC-2014 (techno-culture festival on DDU).
- Got **2**nd position in "**Theme Designing**" organized as a part of Tech-Crusade during FELICIFIC-2013 (techno-culture festival on DDU)

PERSONAL PROFILE
Date of Birth	:	20th August, 1994
Gender	:	Male
